

Serving You and Your Neighbors

Otonabee Conservation provides support and technical advice to area residents about appropriate development, environmental protection, stewardship and recreational opportunities. Educational programs for youth are also offered inspiring the next generation of conservation-minded individuals.

Development Regulations and Permitting:

Otonabee Conservation regulates development on hazardous lands (floodplains, steep slopes, unstable soils) and in environmentally sensitive areas (wetlands, shorelines) under Ontario Regulation 167/06 – Development, Interference with Wetlands and Alterations to Shorelines and Watercourses Regulation. Otonabee Conservation answered 81 general inquiries and issued 26 Permits in 2018.

Plan Review Services: Otonabee Conservation provides technical review of development proposals and applications as well as the review of municipal planning documents within or adjacent to natural hazard and natural heritage lands in your municipality. Otonabee Conservation completed 34 application reviews in 2018.

Flood warning and low water response:

Otonabee Conservation monitors watershed conditions and advises your municipality of potential high water and flood events as well as low water/drought conditions. There were 21 flood messages and 5 low water messages issued in 2018.

Stewardship Programs: Otonabee Conservation works with landowners to restore and improve the health of the watershed by providing advice and support for tree planting and naturalization projects. Thanks to the efforts of over 50 volunteers, 150 native trees and shrubs were planted along the Station Trail in Millbrook as part of the TD Tree Days 2018 event.

Educational Programs: Otonabee Conservation provides educational programs for children and families, exploring the diversity of the natural environment and conservation activities. Among our popular programs is the Spring Water Awareness Program, Discovery Days, Yellow Fish Road and Be a Watershed Steward.

Drinking Water Source Protection: The drinking water system in the Township of Cavan Monaghan supplies water to 1,200 people. Under the *Clean Water Act*, the Trent Source Protection Plan contains policies intended to protect your municipal groundwater source from threats that may impact water quality and quantity.

Conservation Lands: Across the watershed, Otonabee Conservation manages over 4,000 hectares (10,000 acres) of land for conservation and recreation purposes. Otonabee Conservation owns 778 ha (1,924 acres) of conservation land in the Township of Cavan Monaghan, including the Millbrook Dam Conservation Area, Cavan Swamp Wildlife Area and the Whitfield Wetland Wildlife Area. Several properties are enrolled in the Conservation Land Tax Incentive Program and the Managed Forest Tax Incentive Program.

Conservation in Action: Township of Cavan Monaghan

The vibrancy and resilience of our local communities rely on the environmental health of the Otonabee Region watershed. The lakes, rivers, streams, forests, wetlands, floodplains, natural shorelines and groundwater support healthy communities, economic growth and development, and reduce the impact of floods, drought and erosion. Ensuring that our natural environment remains healthy also helps us adapt to climate change.

Otonabee Conservation works closely with municipalities, residents and community partners to deliver programs and services that protect, restore and enhance the Otonabee Region watershed.

Serving Your Municipality

Otonabee Conservation works with your Council and staff to support informed decision making, cost efficiencies, and new initiatives.

The Township of Cavan Monaghan representative on the Authority Board is Councillor Ryan Huntley. The Board of Directors meets on a monthly basis and members of the public are welcome to attend.

Regular communication with your township includes delegations to Council, information bulletins, annual and special reports as well as information available on the website and social media. www.otonabeeconservation.com

Dollars and Cents

The Authority's 2019 budget is \$3,892,478. Municipal levies total \$1.5 million dollars of Otonabee Conservation's total revenue. This means that the balance comes from sources such as government grants, fees, sales and other income.

In 2019, the amount of levy assessed to the Township of Cavan Monaghan is \$336,041.

Otonabee Conservation is able to maximize programs and services through partnerships, leases, service agreements and community collaborations.

A HEALTHY natural environment where communities THRIVE
